

December 1, 1998

Dear Kids Kab,

Our center uses your company to provide transportation to and from the public schools and our center on a daily basis. We would just like to take the time now to express to you how wonderful we feel your company is. You always take the time to walk the children to and from the center. The children are very comfortable with your staff. We could not be more pleased with your company. Please keep up the good work and we will continue to use your service faithfully.

Sincerely,

Lori Norling Jennifer Grabowski
