

## Downers Grove Grade School District 58

We Envision. We Seek. We Believe.

January 2010

Downers Grove Grade School District 58 has been a client of Kids Kab for at least ten years. In that time I have never had a safety issue, or received negative feedback from a principal, or a parent. Student safety is of utmost importance to District 58, and it's very reassuring to know that it is also of utmost importance to Kids Kab.

Prompt service is also very important, as we use Kids Kab to transport students to another building for class. They must be on time each day, and again Kids Kab does an outstanding job of getting our students where they need to be on time each day.

The students Kids Kab transports are 6<sup>th</sup> graders leaving their elementary school for a class at the middle school. The Kids Kab drivers are very professional and they, along with Dilip Desai, get to know our kids, and often times the parents. This alleviates any anxiety the student or parent may be experiencing.

Using Kids Kab has also saved our district money. The service is very reasonably priced and much more efficient than using a large school bus to transport one or two students.

It is for all these reasons that we have enjoyed our ten-year relationship with Kids Kab, and look forward to many more.
